

## HOW IS THE ADJUSTED GROSS SCORE CALCULATED?

As of 11/30/22

**Stroke reduction for "Adjusted gross score" "2020 Equitable stroke control"**

**For calculating an adjusted gross score...**

Max hole score allowed is a "Net Double Bogey" = 2 over par after full handicap strokes are applied. (Example: if you have an 18 Handicap and you are playing a par 5 hole, you are allowed a score of 2 over 5 plus your handicap stroke, so 5+2+1 equals a score of 8 Max.)

**Number of scores Index is based on is 20.**

**Minimum number of scores needed  
before an Index can be calculated.**
